PROFESSIONAL SUMMARY

Computer Engineering undergraduate (B.Tech, 2027) experienced in building web applications with React, Next.js and Node.js, with 100+ DSA problems solved in C++. Strong grounding in algorithms and database design, plus hands-on LLM API integration. Seeking an entry-level software engineering role building scalable, user-facing products.

EDUCATION

Pimpri Chinchwad College of Engineering, Pune 2023 – 2027
Bachelor of Technology (B.Tech), Computer Engineering | Expected: June 2027
Secondary School Certificate (SSC)
Percentage: 95.60%

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, Python
Frontend: React, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Databases: MySQL, MongoDB
Tools & Platforms: Git, GitHub, AWS (EC2, S3), VS Code
AI / Productivity: Prompt Engineering, LLM APIs (OpenAI, Claude), GitHub Copilot, Cursor, Claude Code
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Agile Fundamentals

EXPERIENCE

Software Development Intern, Synthomind Innovations 07/2026 – 09/2026
- Contributed to an AI-powered application integrating LLM APIs (OpenAI/Claude) to build conversational and content-generation features.
- Worked with React and Node.js on the frontend/backend integration layer, connecting UI components to AI API endpoints.
- Assisted in prompt design and testing to improve response accuracy and reduce output latency.
- Collaborated with a small team using Git for version control, participating in code reviews and daily progress check-ins.

In-House Intern, PCCOE — UniSphere College Event Management Platform 2025
- Developed UniSphere, a centralised platform for college clubs to manage event registration, attendance, certification and reporting.
- Built a Smart Attendance module with dynamically rotating QR validation and Role-Based Access Control for Student and Admin users.
- Delivered automated certificate generation and a real-time analytics dashboard for event organisers.

PROJECTS

IntelliMail — Intelligent Email Automation Suite 2026
Python, LangGraph, Groq LLM, Streamlit, Tavily API, IMAP/SMTP
- **Overview:** AI tool that automates internship outreach, inbox replies and email writing, with human approval before sending.
- Built three LangGraph agents (HR Outreach, Inbox Reply, Smart Compose) with stateful routing and a Streamlit 3-tab interface.
- Outreach agent parses resume PDFs, researches companies via Tavily search and drafts tailored emails with a Groq LLM.
- Inbox agent fetches unread mail via IMAP, classifies intent with an LLM and sends replies over SMTP.
- **Special features:** human review before every send (LangGraph interrupts), thread-preserving replies, CSV log of sent emails.

UniSphere — College Event Management Platform 2025
Next.js, Node.js, MongoDB, Tailwind CSS
- **Overview:** Centralised platform for college clubs to manage the full event lifecycle, from registration to reporting.
- Implemented Role-Based Access Control separating Student and Admin privileges across all protected routes.
- Optimised MongoDB queries and indexing, reducing average API response time by approximately 30%.
- **Special features:** Smart Attendance with dynamically rotating QR validation that eliminates proxy check-ins, automated participation-certificate generation and a real-time analytics dashboard for organisers.

Smart Housing Solution — PG Finder 2024
PHP, MySQL, Tailwind CSS
- **Overview:** Brokerage-free platform connecting students directly with paying-guest accommodation owners.
- Designed a normalised MySQL schema and implemented secure session-based authentication.
- **Special features:** advanced multi-parameter search and filtering across budget, location and amenities; owner contact details protected behind verified-user access to prevent data scraping and spam.
- Copyright formally registered for the project.

CERTIFICATIONS

- SQL and Database Fundamentals
- Master Azure DevOps: From Beginner to Advanced
- Fullstack Python and Django Framework
- Java Masterclass 2025: 130+ Hours of Expert Lessons

ACHIEVEMENTS

• HackerRank 4-Star rating in Problem Solving.
• Solved 100+ Data Structures and Algorithms problems in C++ across competitive platforms.

EXTRA-CURRICULAR ACTIVITIES

• NSS (National Service Scheme) — Volunteer
• Event Management Co-Head
